

The Alpha Project

Second Annual Research Symposium

Predicting the Quantitative Behavior
of the Yeast Response to Mating Pheromone

Friday, June 4th

Registration: 8:00 am–9:00 am
Symposium: 9:00 am–5:00 pm
Reception & Poster Session to follow

Keynote: Dr. Charles Boone

Department of Medical Genetics & Microbiology
University of Toronto

Dr. Roger Brent

President, The Molecular Sciences Institute

Dr. Michael Elowitz

California Institute of Technology

**Additional presentations by leading
Alpha Project researchers**

University of California

Berkeley Art Museum Theater

2621 Durant Avenue • <http://www.bampfa.berkeley.edu>

Presented by

The Molecular Sciences Institute

Center for Genomic Experimentation & Computation*

Space is Limited
